# Windows Virtual Desktop Switcher Script "Desktop-Switcher.ahk" Main 3 Hotkeys Backend Easy Explained

## **Numpad 1** = Select Workspace 1 (PowerPoint)

Hotkey Tasks Order

1. Select Virtual Desktop 1 using Desksoft WindowManager. (PowerPoint)

2. Activate and Maximize PowerPoint Presenter View Window using Desksoft WindowManager.

3. Double click PowerPoint Presenter View Window using Desksoft WindowManager.

(Windows updates broke Virtual Desktop Application Focus when switching between Virtual Desktops. So this step is necessary)

---

## **Numpad 2** = Select Workspace 2 (EasyWorship)

Hotkey Tasks Order

1. Select Virtual Desktop 2 using Desksoft WindowManager. (EasyWorship)
2. Activate and Maximize EasyWorship Window using Desksoft WindowManager. (EasyWorship)

---

## **Numpad 3** = Select Workspace 3
