(This page does not display a summary of used colors for arrows.)

## Windows Virtual Desktop Switcher Script "VD-examples.ahk" Main Hotkeys Backend Explained

### **Numpad 1 = Select Workspace 1 (PowerPoint)**

#### Hotkey Tasks Order

1. Select Virtual Desktop 1 (PowerPoint)
  2. Activate and Maximize PowerPoint Presenter View Window
  3. Double click on text called "Next" on that Window  
( Windows update broke Virtual Desktop Application Focus when switching between Virtual Desktops. So this step is necessary)
- The "FindText" library from Autohotkey is needed for this work.
- 

### **Numpad 2 = Select Workspace 2 (EasyWorship)**

#### Hotkey Tasks Order

1. Select Virtual Desktop 2 (EasyWorship)
  2. Activate and Maximize EasyWorship Window
- 

### **Numpad 2 = Select Workspace 3**
