

My Custom Run Shortcuts

For Church Presentation

(Aliases)

01 - cp
02 - kcp
03 - cpon
04 - cpoff
05 - eh
06 - ho
07 - aho
08 - easy
09 - keasy
10 - myfs
11 - sliu
12 - slia
13 - ansi
14 - ww
15 - ep
16 - dt
17- ht
18 - sm
19 - nsd

1 - **cp** - Church Presentation

Admin Script = acp

(For Special Use Cases)

This Run "Church Presentation.bat" Script

Script Tasks Order

1. Close All Active Virtual Desktops
(Using VirtualDesktop Powershell Module)
2. Create 2 Virtual Desktops
(Using VD.ahk)
3. Start "Windows Virtual Desktop Switcher Script"
(Desktop Switcher.ahk)
4. Move to Second Virtual Desktop
(Using VirtualDesktop Powershell Module)
5. Start EasyWorship
6. Start Key Manager with "SkipUAC"
(For the Presentation Remote)
7. Start Unified Remote
(For the Virtual Presentation Remote) [Android]

2 - **kcp** - Kill Church Presentation

This is a Admin Script.

This Script Ask Administrator Privileges.

This Run "Admin - Kill Church Presentation.bat" Script

Script Tasks Order

1. Kill Key Manager
2. Kill "Windows Virtual Desktop Switcher Script"
(Desktop Switcher.ahk)
3. Kill EasyWorship & EasyWorshop Helper
4. Kill Unified Remote
5. Close all Virtual Desktops
(Using VirtualDesktop Powershell Module)
6. Kill Open PowerPoint Presentation

3 - **cpon** - Church Presentation ON

This Run "CP-ON.bat" Script

Script Tasks Order

1. Mute Windows Sound
2. Set Maximum Brightness
3. Set Live Wallpaper
(Black Wallpaper)
4. Enable Auto Hide Taskbar

4 - **cpoff** - Church Presentation OFF

This Run "CP-OFF.bat" Script

Script Tasks Order

1. Unmute Windows Sound

2. Set Brightness to 10 %

3. Set Inactive Wallpaper

(Color Wallpaper)

- This set random cross wallpaper from my cross
wallpaper collection.

4. Disable Auto Hide Taskbar

5. - **eh** - EasyWorship Helper

This Run “Easy Worship Hymn Labels.bat” Script

Script Task

This opens the “EasyWorship-custom-hymn-labels.md” markdown file with Typora

- This Contains all my custom EasyWorship hymn labels shortcuts.

(Typora = Markdown Editor)

Communion Hymn 4 :	බොදුන් ගීය 4 :				
Final Hymn :	සමුගැනීමේ ගීය :	මංගල වේවා			
Year : - 2007					

8 - **easy** - EasyWorship

Admin Script = aeasy
(For Special Use Cases)

Open EasyWorship.

9 - **keasy** - Kill EasyWorship

Admin Script = keasy

(For Special Use Cases)

Kill EasyWorship.

10 - **myfs** - My Fonts Selection

This Run “My-fonts-selection.bat” Script

- Open “My-fonts-selection” Markdown file with Typora

FMEmanee	ANSI
FMBindumathi	ANSI

The Sinhala Fonts Used in Sinhala Hymn Titles

Font Name	Font Type
SINHA Samanala 2012	ANSI
UN-Samantha	Unicode
FMSamantha	ANSI
apex-a.pura-049	ANSI

English Lyrics

The English Fonts Used in English Hymn Lyrics

Serif Fonts

Font Name	Font Type
Palatino	Unicode
Book Antiqua	Unicode

11 - **sluu** - Sinhala Layout Image UNICODE

This Run "Sinhala-unicode-keyboard-layout-image.vbs" Script

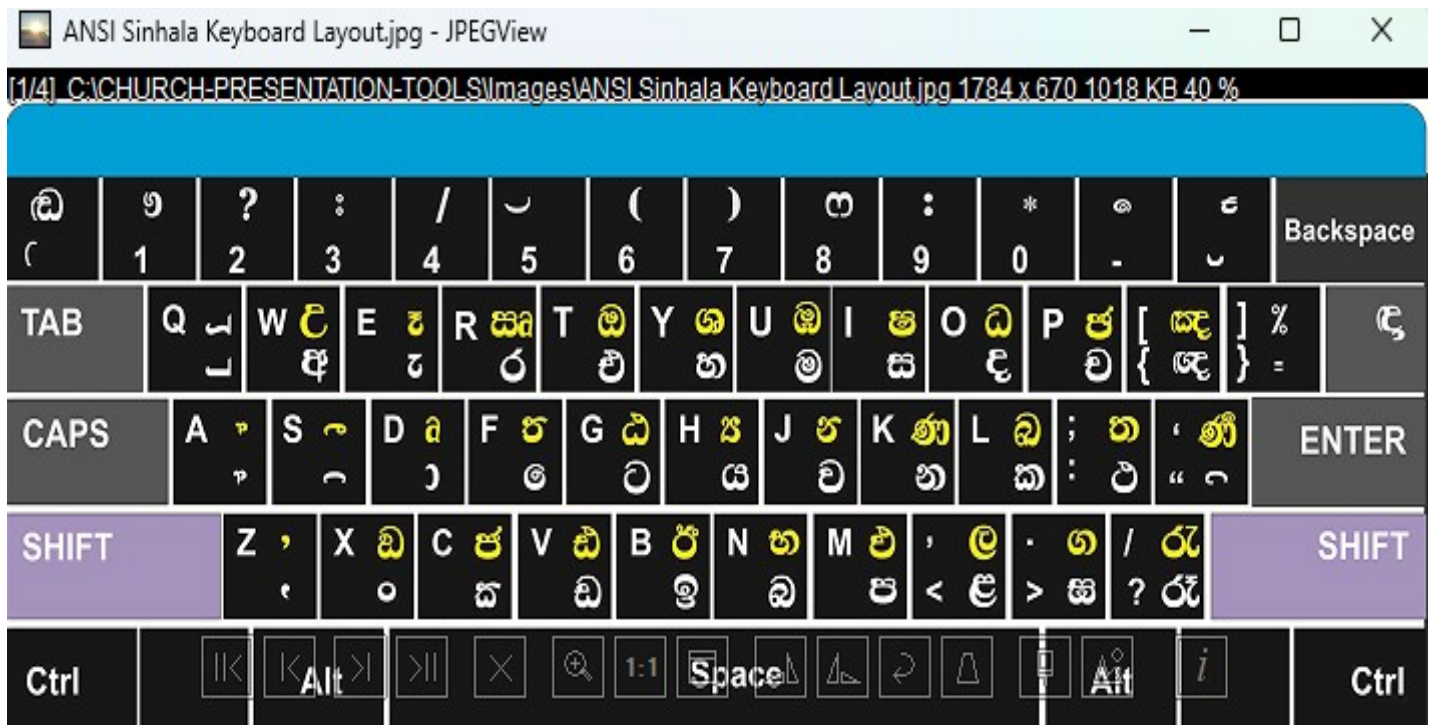

- Open Sinhala "Wijesekara" Keyboard Layout Image with JPEGview

12 - **slia** - Sinhala Layout Image ANSI

This Run "Sinhala-ansi-keyboard-layout-image.vbs" Script

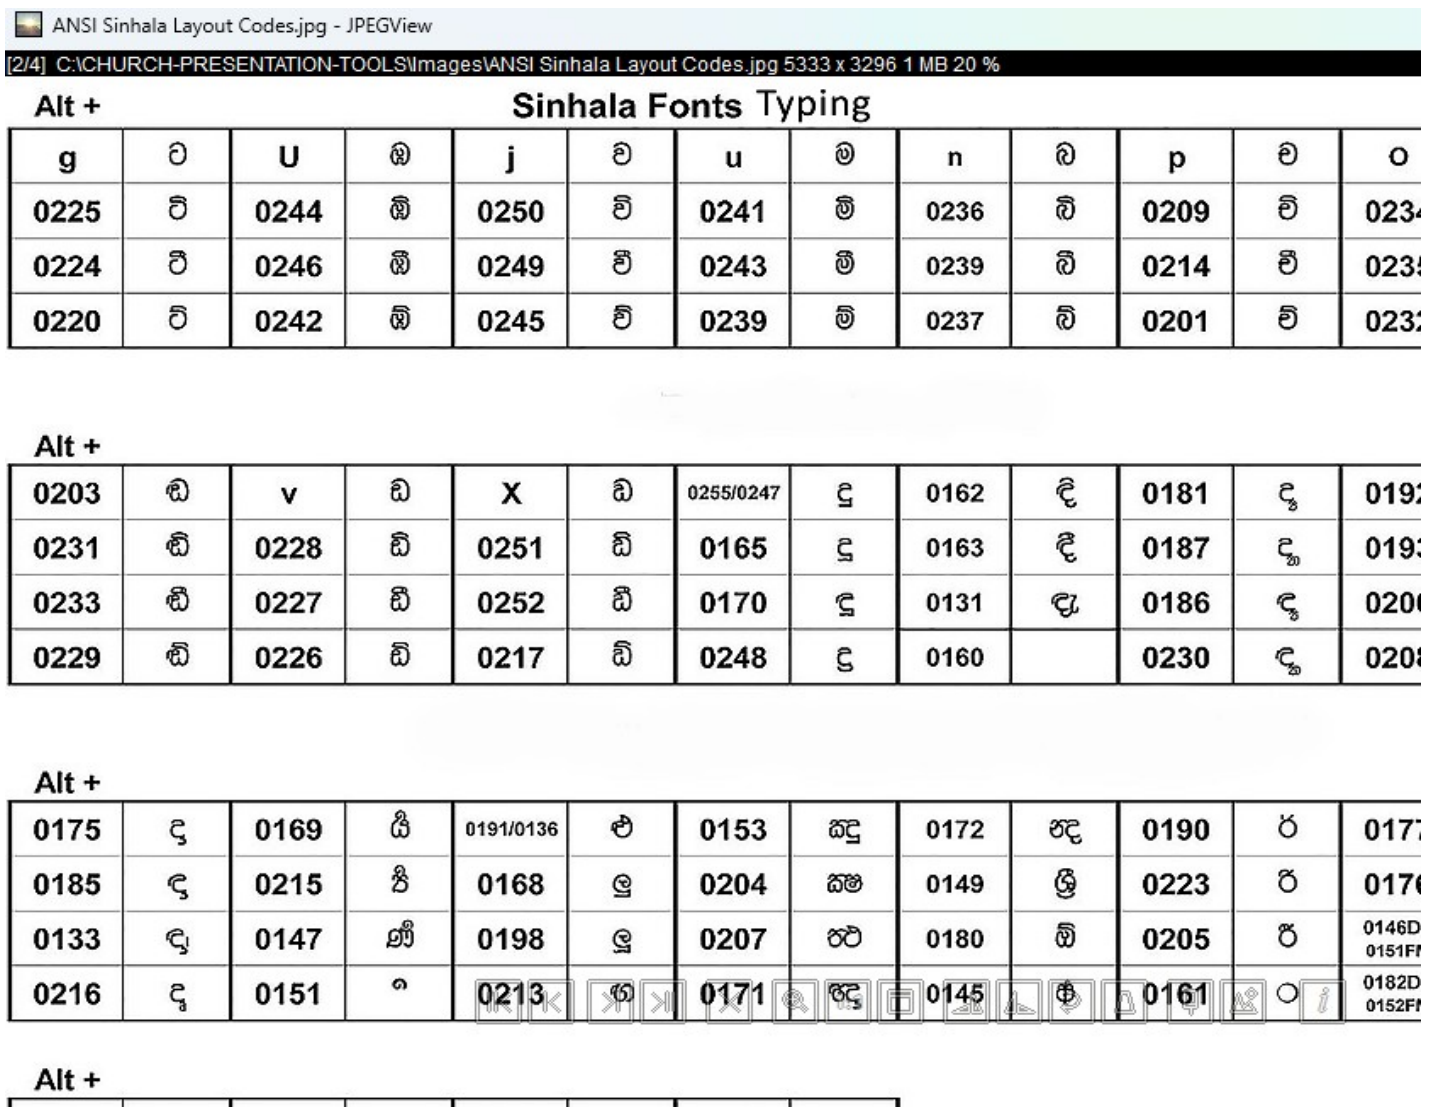

- Open Sinhala “ANSI” Keyboard Layout Image with JPEGview

13 - ansi - ANSI

This Run "Sinhala-ansi-keyboard-layout-codes.vbs" Script

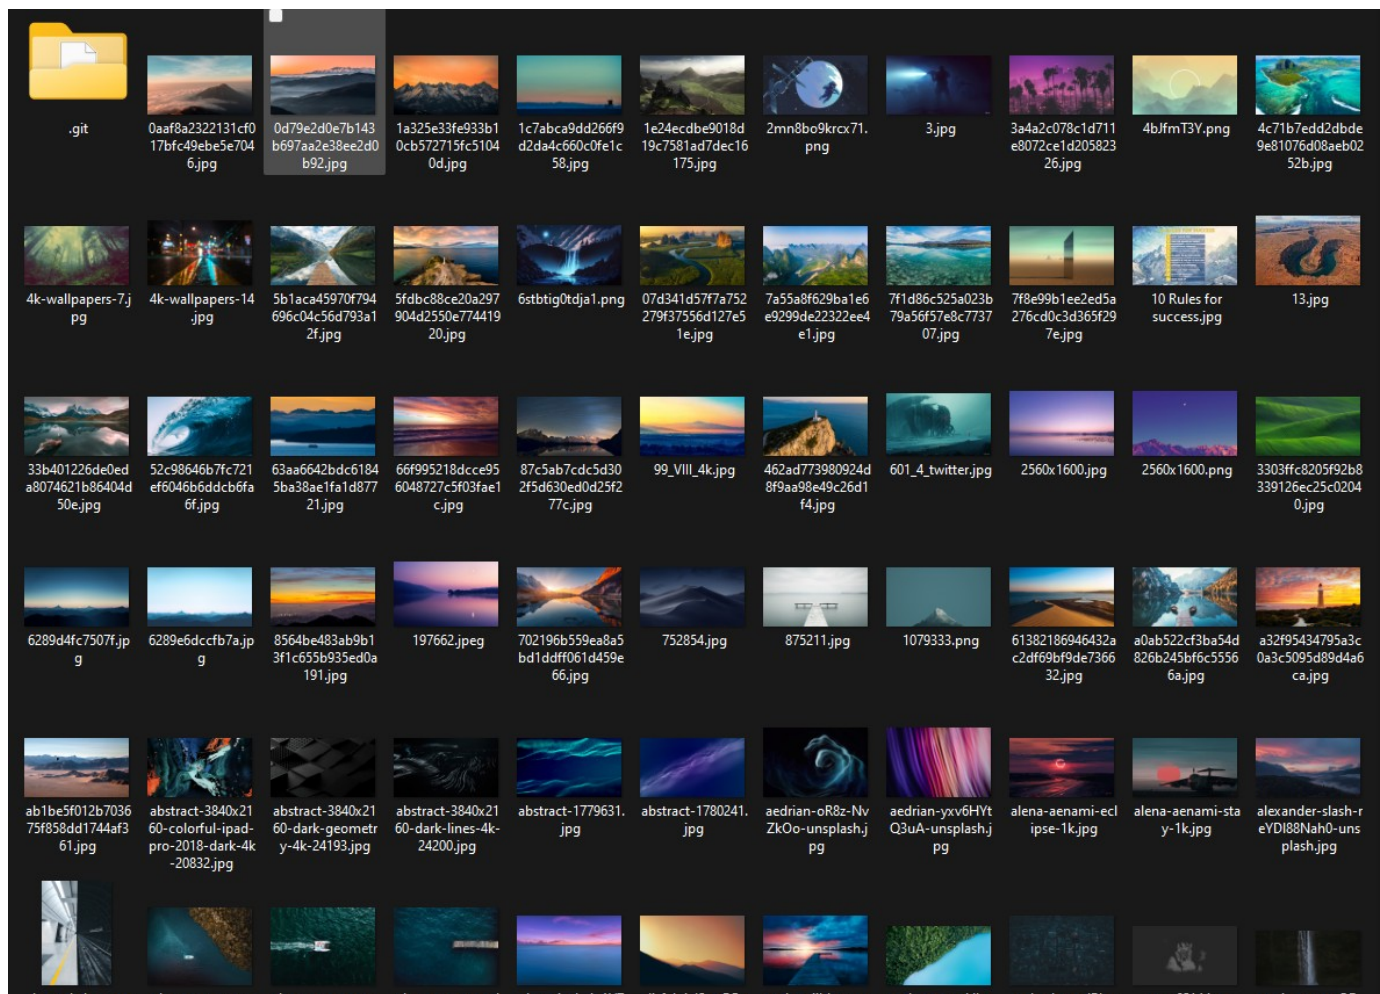

- Open Sinhala "ANSI" Keyboard Character Cheat Sheet Codes
Image with JPEGview

14 - **ww** - Windows Wallpaper

This Run “Set-Random-Wallpaper.vbs” Script

- Randomly Select a Wallpaper from a Selected Directory

15 - **ep** - espanso

Open Espanso.

Espanso is a Cross-platform Text Expander written in Rust.

When working with EasyWorship Song Database, this tool is very helpful. This can expand text with a simple key press.

Examples =

1. :h = ගීතිකාව :
2. :C = CHORUS
3. :nu = කිතුණු ගී අංක -
4. :H = HYMN

16 - **dt** - Default Taskbar

This Run "Default-Taskbar.vbs" Script

Script Task

Without Auto-hiding, Set Windows Taskbar Behavior to Default.

17 - **ht** - Hide Taskbar

This Run "Hide-Taskbar.vbs" Script

Script Task

Set Auto-hiding Taskbar.

(Before)

(After)

18 - **sm** - Sunday Mass

This Run "Sunday-Mass-Easyworship-Schedule.vbs" Script

Script Task

A preconfig schedule file called "Sunday Mass" will be copied to your desktop for EasyWorship. There are some hymns that are commonly sung at Sunday Mass in it.

19 - **nsd** - Next Sunday Date

This Run "Sinhala-Next-Sunday-Date.vbs" Script

Script Task

This copies my tweaked Sinhala date to my clipboard. It is very useful when adding new Sunday dates to existing presentations files.

Ex = 2024 ජූනි 23

Need Windows Apps Shortcuts
